Comment. It is known that these deliveries will be shipped to Austria. It is believed that they will be used as compensation payments for anilime oil (Anilinoel). The Farbenfabrik Wolfen urgently needs anilime oil for the production of a catalyst needed for the production of buna. This catalyst reduces the processing time of buna to one-sixth, so that if it is used, six times as much buna can be produced in the same period of time. Anilime oil is normally supplied by the USSR, but shipments are slow and uncertain.
